

Michael Lindstedt and Crystal Courtney in effect a "license to kill" Martina Lindstedt without much possibility of being held to account, especially in the probate division, because they would be deflecting Plaintiff from being able to have the matter heard before a jury, as is Plaintiff's right. These New Defendants are in effect accessories to murder of Plaintiff's mother by Michael Lindstedt and Crystal Courtney. They should not be allowed to get away with murder because they are lawyers and judges. They need to be held to account for their crimes.

Plaintiff's Mother Martina Lindstedt's death warrant was written on February 18, 2013 when Corporal Barnes of the Newton County Sheriff's Department effectively told Michael Lindstedt and Crystal Courtney that they could do anything to Martina Lindstedt and that nothing that they did, from fraud and embezzlement to actual murder would be investigated by Newton County law enforcement. On March 5, 2013, New Defendant Terry Neff told Michael Lindstedt to in effect loot Martina Lindstedt's estate and property in Newton County and to go ahead and kill her in South Dakota. On May 21, 2014, Judge Kevin Lee Selby by refusing to step down according to Missouri law told Michael Lindstedt that he would ensure that no probate hearing before a neutral jury into possible "undue influence" and possible murder would be heard in Newton County. Judge Timothy Perigo refuses to put an end to lawlessness in his own state circuit court, enabling corruption, fraud, embezzlement, treason and murder.

Plaintiff in filing this suit back on Feb. 22, 2013, merely wanted his brother to stop stealing from our mother. But instead he kept on "doubling-down" on the evil and with the assistance of regime-criminal Defendants finally killed my mother. Now all of them must answer for their crimes and none escape scrutiny for their misdeeds.

Hail Victory!!!
