APPELLANT LINDSTEDT’S MOTION TO SUPPLIMENT RECORD ON APPEAL

Defendant / Appellant Pastor Martin Luther Dzerzhinsky Lindstedt, ArchBishop of Missouri and President of the incorporated in Missouri public benefits church corporation Church of Jesus Christ Christian/Aryan Nations of Missouri, (hereafter Pastor Lindstedt) makes the following Motion to Supplement the Record on Appeal consisting of Stricken Document #24 of April 22, 2015 along with Exhibit #1, “Rabbi Lindstench: Race Traitor or Jew?” in which Bryan Reo published on his blog on Nov. 5, 2010 this article originally written by Reo co-conspirator Eli James (real name Joseph November since 1981) on Nov. 1, 2010 on a blog provided by Reo co-conspirator William Finck. The value of Document #24 was that by making this Amended Answer, Counter-Suit, and Joinder and adding about 40 Reo co-conspirators to the bogus Reo case is that by doing so all appetite on the part of U.S. Magistrate Matthew Whitworth for continuing the case would be permanently lost as the case would devolve into a circus of forty misbegotten idiots on the one side against Pastor Lindstedt all fighting over how Pastor Lindstedt called them mongrel and jew homosexuals on the Internet because they called Lindstedt a “convicted child molester”. By then most all of the thieves had fallen out and some of them hated Bryan Reo and William Finck far more than they hated Pastor Lindstedt. By calling Pastor Lindstedt a “convicted child molester” quite a few times, Bryan Reo’s case for “libel” and “slander” and “defamation” had fallen apart. Bryan Reo’s continual vexatious and frivolous motions gave Pastor Lindstedt a chance to un-air more dirt. So this stricken Motion with the “convicted child molester” slander made the fraudulent and frivolous Bryan Reo federal

litigation impossible to continue. Magistrate Whitworth simply had enough and so Whitworth dismissed the entire case, albeit without prejudice. Reo wasn't going to win anything, much less having Pastor Lindstedt's Church web pages shut down and transferred to Bryan Reo and a permanent gag order imposed against Lindstedt – not that that was ever going to happen.

Thus Stricken-from-the Record Document #24, while allowing U.S. Magistrate Matt Whitworth to more easily dismiss Bryan Reo's case without prejudice is highly relevant to this appeal because it demonstrates that Bryan Reo filed a fraudulent federal case and thus deserves prison time for filing fraudulent DMCA takedown notices, along with Reo's co-conspirators. Appellant Lindstedt asks that this relevant Motion be granted, and attaches this Motion to the Stricken Document #24, and thus to the Appellate Brief and is served with the Appellate Brief.

Hail Victory!!!
